ナジックネットご利用にあたって

Nasic Net

# User Agreement for Nasic Net

This document provides important information to subscribers of Nasic Net in accordance with Article 27 of the Telecommunications Business Act.

Please read this information carefully before applying for the service.

The terms and conditions of the service are available on the website listed below.

WEBSITE :  
<https://nasic.net>

Please carefully read this document as well as the brochure or the website.

This document is always available for viewing and download on the website above.

Service name	Nasic Net	Details of Telecommunications Services	Internet connection service using fiber-optic lines

The apartment you are planning to apply for	<input type="checkbox"/> LAN <input type="checkbox"/> VDSL	LANまたはVDSLにチェックを入れてから交付してください。
---------------------------------------------	------------------------------------------------------------	--------------------------------

1	<input type="checkbox"/>	The apartment you are applying for is equipped with Nasic Net. Since Nasic Net facilities are installed as shared wiring within the building, it is not physically possible to use any other fixed-line internet services for the apartment.						
2	<input type="checkbox"/>	Applicants for Nasic Net are advised to review the service details, fees, and terms of use in the Nasic Net brochure or on the Nasic Net website beforehand. (This document focuses on applications made concurrently with an apartment lease contract.)						
3	<input type="checkbox"/>	[Connection Speeds] Nasic Net offers a maximum connection speed of 1 Gbps for LAN-type connections and 100 Mbps for VDSL-type connections. However, since multiple residents in the same building share the same line, connection speeds may decrease during peak usage times or depending on your environment (best-effort service). *Please note that connection speeds are not guaranteed.						
4	<input type="checkbox"/>	[Service fee] If any discounts apply, a brochure indicating the discount details or the discounted amount will be provided. Should you have any questions, please contact the office in charge of the apartment. <div><div>•The usage fees are as shown in the table below.</div><table><tr><td>Subscription fee</td><td>¥13,200</td></tr><tr><td>Monthly fee for Basic course</td><td>¥3,630</td></tr><tr><td>Security-less course</td><td>¥3,300</td></tr></table><div>(All amounts include tax.)</div></div> <div>Provider fee is included in Monthly fee The subscription fee is paid at the same time as your initial cost, and the monthly fee is billed together with your rent. For the first payment, you will pay three months' worth of monthly fees along with the rent due three months after the service begins. The monthly service fee for the month of application will be prorated. No proration applies to the month of cancellation.</div>	Subscription fee	¥13,200	Monthly fee for Basic course	¥3,630	Security-less course	¥3,300
Subscription fee	¥13,200							
Monthly fee for Basic course	¥3,630							
Security-less course	¥3,300							
5	<input type="checkbox"/>	[Subscription Plan and Activation Date] The default subscription plan at the time of enrollment is the "Basic Plan," and the service start date is generally the same as the start date of your rental agreement. You can confirm the service start date through Nasic My Page or in the "Service Activation Documents (Notice of Your Contract Details)" that will be provided to you later.						
6	<input type="checkbox"/>	[Usage Restrictions] If we find that certain users are consuming an excessive amount of bandwidth, such as through peer-to-peer (P2P) file-sharing or similar types of communication, and this is causing or could cause slower web browsing or delays in email for other customers, we may temporarily suspend service or limit data usage for those users. This measure is taken in accordance with the Telecommunications Business Act to maintain fair and stable Internet access for everyone.						
7	<input type="checkbox"/>	[In Case of Service Interruptions] In the event that the Nasic Net service is unavailable, refunds will be issued in accordance with the Terms of Service. Please note that Nasic is not responsible for any expenses related to equipment or network connections prepared by the user.						
8	<input type="checkbox"/>	[Using the Service via Wireless (Wi-Fi)] To use internet via wireless connection (Wi-Fi), users are required to prepare their own Wi-Fi router. Please note that routers imported from overseas without the Japanese Technical Conformity Mark ("Giteki" mark) are not permitted for use under Japanese regulations.						
9	<input type="checkbox"/>	[Device Setup] The setup of devices, such as Wi-Fi router, PC, tablet, or smartphone, must be performed by the users. Our service counters and help desk do not provide assistance for device configuration. If you would like assistance with setup, please use the paid on-site support service.						
10	<input type="checkbox"/>	[Rental Modem Information] For apartments using the VDSL system, a rental modem will be provided when you receive your room key. (If you are already living in the apartment, the modem will be delivered to you by courier.) When you cancel your Nasic Net service, please return the rental modem to us. We recommend keeping the original box and packaging materials until the modem is returned. If the modem is not returned, a fee of 9,900 yen (tax included) will be charged.						
11	<input type="checkbox"/>	[Application Cancellation and Termination of Service] Cancellations of applications can be made up to three business days before the activation date (the start date of your room contract), excluding weekends and public holidays. From two business days before the activation date onward, preparations for activation will already be underway, so cancellations will be handled under the provisions described in section 12, "Initial Contract Cancellation Policy." For cancellations after service activation, you may terminate (cancel mid-term) your contract effective on the last day of any month. In this case, the subscriber must complete the cancellation procedure via My Page or by submitting a cancellation form at least three business days prior to the desired cancellation date (excluding weekends and public holidays). If your room rental agreement is terminated, your Nasic Net contract will automatically end on the last day of that same month, and no separate cancellation procedure for Nasic Net will be required.						
12	<input type="checkbox"/>	[About the Initial Contract Cancellation Policy] For cancellations made within eight days from the activation date (the start date of your room contract), the contract may be terminated under the Initial Contract Cancellation Policy. In this case, the usage fee will be calculated on a pro-rata (daily) basis. The subscription fee will be refunded, but a construction fee of 2,200 yen and an administrative fee of 3,300 yen (both tax included) will be charged. If you wish to request an initial contract cancellation, please submit your application to us either in writing or via My Page. After receiving your request, we will settle the fees in accordance with applicable laws and regulations.						
13	<input type="checkbox"/>	[Notification of Contract Details] After you apply, we will provide you with the "Service Activation Documents (Contract Details Notice)", either in person at the store or by mail at a later date. Please review the document carefully to confirm your contract details. Please note that the information in the document reflects the contract details as of the document's creation date. Any changes made after that date can be checked on your Nasic My Page.						

★ After reading and confirming your understanding of the above information, please place a check mark in the box.
